UNIVERSITY OF CONNECTICUT PHONE 9626 NEW LONDON, CONN.

Station WRUM
Fort Trumbull, New London
December 13, 1948

Dear Bobbie:-

Here's that follow-up letter I promised you at the IBS meeting last week-end. I hope your party beat the storm back to Northampton and Hanover, respectively. Ed Caputo and I hit one heck of a rainstorm about half way back to New London. It was rugged driving, but I think the possibilities shown by the meeting made the trip more than worthwhile. We'll see!

I've gone through our files, and am sending you one of just about everything we have. Some of it is based on the NBC Production Format, so it's authentic stuff. The announcers and operators handbooks cover the subjects in a fairly simple manner, and you might be able to pick up some tips.....at any rate, I hope that what we have to offer will be of some small help in helping you along with your station at Smith. Unfortunately, we never put out a printed list of the many little errors we've made in the process of getting our station into operation.....However, you will probably run across many of these and develope your own solutions for them. However, I want to emphasize that if there is any way in which we can help you with your operational problems, or keep you from making mistakes that we have made ourselves, we at WRUM will be ready and willing to help you out.

I hope you folks at WCRS will let us hear from you every so often.....that way a contact will be maintained that will enable us to keep posted on what each is doing. If we come across pertinent info, we'll get it right off to you.

That's about it for now, so I'd better over and out. Provided Dick comes through with the Great Neck address, will see you at the meeting on Dec. 27. 'Til then best wishes and GOOD LUCK from the ''RUMMIES''.

Very cordially,

Bill Klein

William F. Klein,
Station Manager, WRUM.
